Subject : Library of Congress Request

1. Bill Raiford of LC called this morning to "verify" his list of USIB Committees. I checked our records as well as those of USIB, Executive Registry, IC Registry, OLC, DDI, and CIA Library and could find no record of having given Mr. Raiford such a list. I called him back and asked where he had gotten the list. He said I had read it to him over the phone. I denied this, and he said, well--it must have been someone else, but he didn't remember just who.

2. Per [REDACTED] I called Raiford back and said that we had provided this information to the Select Committees. Raiford refused, per Library of Congress policy, to identify his requestor or the purpose of the request. I said that we would be happy to respond to a direct request from either a Committee or a Congressman, but could not provide the information to him at this time. I asked him to call OLC for CIA information and this office for Community information. He remained polite, and said he would ~~report~~ this back to his supervisor.
